

Description

Voltage Spike Suppressor for circuit with high speed switching devices with LED Indication.

Applications

Electronic Equipments
Industrial Automation
Drives

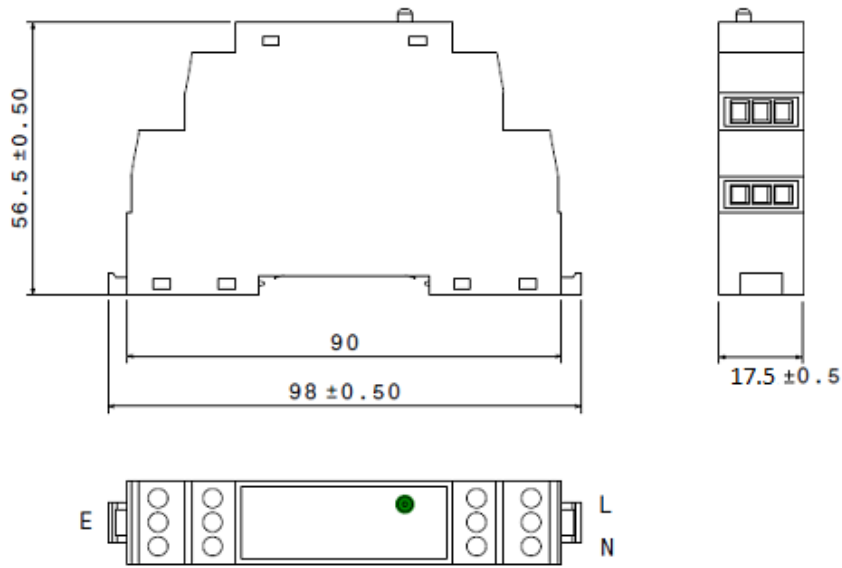

Model Number	Ordering Code
Single Phase Surge Suppressor – 20KA	SP1P20KALED
Single Phase Surge Suppressor – 40KA	SP1P40KALED

Technical Specifications

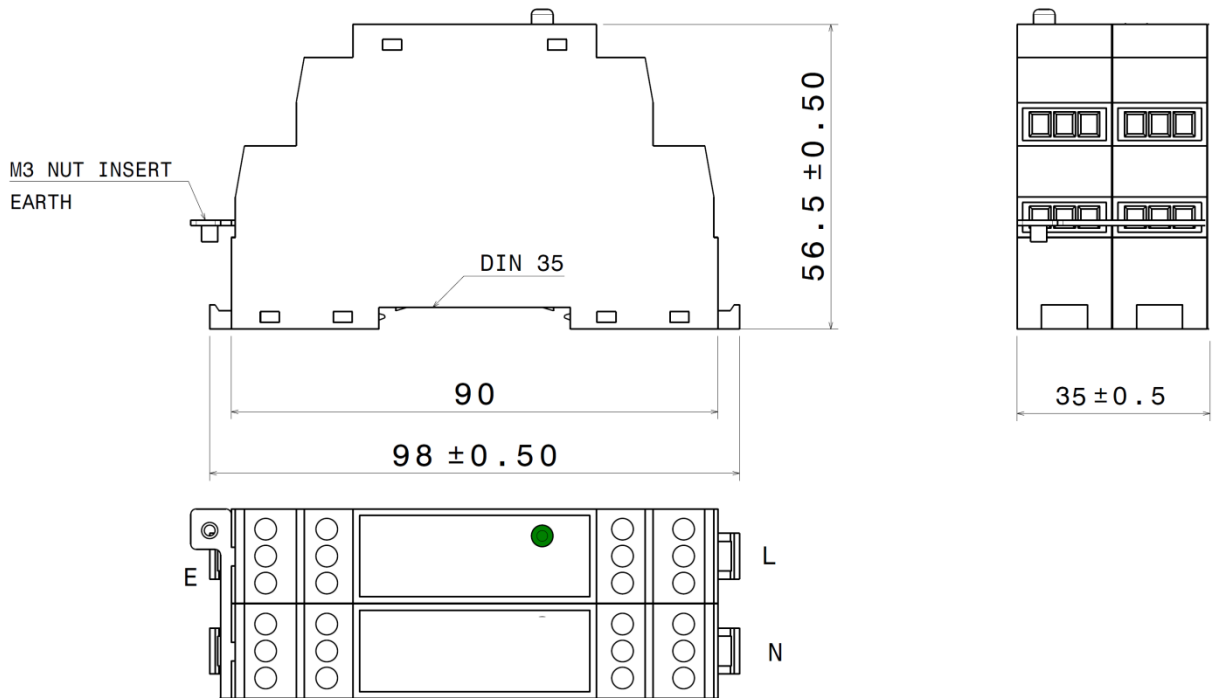

Continuous Operating Voltage	: 250VAC
No. of Lines	: Line and Neutral
Transient protection	: 20kA & 40kA
Pulse Shape	: 8/20 μ s
Operating Temperature	: -25°C to 85°C
Storage Temperature	: -30°C to 85°C
Enclosures	: Polyamide Nylon, PA – UL 94 V0
Power Connection	: Shock Proof Connectors
Mounting	: Din Rail Mounting
Failure Monitoring	: LED Indication

Mechanical Drawing

For 20kA type

For 40kA type
