

Description

Voltage Spike Suppressor for circuit with high speed switching devices with LED Indication.

Applications

Electronic Equipments
Industrial Automation
Drives

Model Number	Ordering Code
Three Phase Surge Suppressor – 20KA	SP3P20KALED
Three Phase Surge Suppressor – 40KA	SP3P40KALED

Technical Specifications

Continuous Operating Voltage	: 440VAC
No. of Lines	: L1, L2, L3 and N
Transient protection	: 20kA & 40kA
Pulse Shape	: 8/20µs
Operating Temperature	: -25°C to 85°C
Storage Temperature	: -30°C to 85°C
Enclosures	: Polyamide Nylon, PA – UL 94 V0
Power Connection	: Shock Proof Connectors
Mounting	: Din Rail Mounting
Failure Monitoring	: LED Indication
